

# CANADIAN INTELLIGENT TECHNOLOGY

**ECO1-60 - INSTANTANEOUS WATER HEATER**

# APPLICATIONS

Restaurants

Salons

Whole house

Kitchen

School

Laundries

Commercial

Hotel

Bathroom

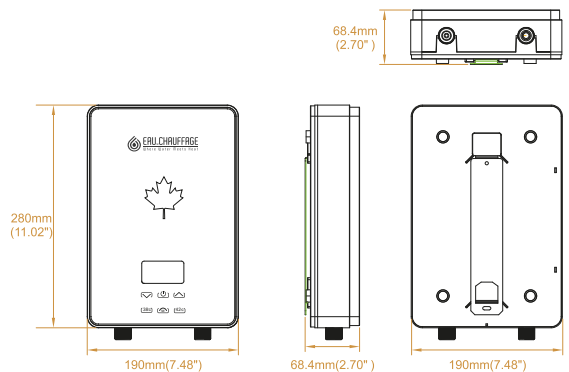

Shower

# SPECIFICATION

- Water Heater Type: Cast aluminium heating element
- Hydraulic Pressure: 0.02-0.6MPa
- 30°C-55°C (86°F-131°F) temperature levels, vary depending on season and flow intensity
- Waterproof Degree: IPX4
- Rated water flow: 2-6L/Min
- Over Temperature protection: 55°C
- Panel material: Glass
- With LED temperature display
- Including 0.6~ 0.7 meter power cable

## Voltage

220V-240VAC

## Applicable Water Pressure

0.02-0.6MPa

## Water Connections

G1/2"

## Wattage

6000W

## Product Size

290 x 200 x 65 mm

## NW/GW

2.6kg/3.0g

# INTRODUCING THE REVOLUTIONARY INSTANTANEOUS WATER HEATER

## Unleash Hot Water Instantly

Say goodbye to waiting for water to warm up. Our cutting-edge technology delivers piping hot water on demand, providing you with unparalleled convenience.

## Smart Energy Management:

Our state-of-the-art technology intelligently manages energy consumption, ensuring you get the hot water you need without the wasteful costs.

## Energy-Efficient Excellence:

Embrace eco-friendly living with our water heater's energy-efficient design. Save both the environment and your wallet as you enjoy luxurious hot showers.

## Safety First:

Equipped with advanced safety features, our water heater guarantees worry-free usage for you and your loved ones. Prioritize safety without compromising on comfort.

## Seamless Installation:

Transform your space effortlessly. Our sleek and compact design ensures a hassle-free installation process, fitting perfectly into any setting.

## Endless Comfort:

Indulge in a continuous flow of soothing hot water. Whether it's a relaxing bath or a quick rinse, experience uninterrupted comfort like never before.

## Elevate Your Lifestyle:

Elevate your daily routine with the convenience of instant hot water. Embrace the future of comfort and luxury with our state-of-the-art instantaneous water heater.

## Eco-Friendly Innovation:

Make a positive impact on the environment while enjoying luxurious hot water. Our water heater's eco-conscious design minimizes energy waste, reducing your carbon footprint.

# REDEFINING COMFORT AND EFFICIENCY!

Constant temperature
